

Entaniya Fisheye

Specifications:

Plate	Duralumin (A2017) black anodised
Screws	Stainless steel (SUS316)
Weight (g)	52 grammes
Dimensions	42mm (wide) x 55mm (length) x 37mm (high)
Weight	60 grammes (including screws)

The Entaniya 280° Single Cam Panoramic Rig is designed for use with a Back-Bone RIBCAGE modified GoPro camera fitted with an Entaniya 280° extreme Fisheye lens.

Mounting the camera in the rig by using the Ribcage tripod mount enables you to shoot horizontal 360 video with the camera facing upwards.

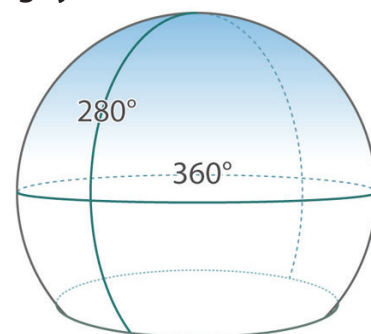

The NEW Entaniya ENTAPANO range of Fisheye lenses achieves unique wide-angle images well beyond a normal field of view. The current range covers 220° 250° & 280° and are designed for 360 degree image capture using devices like the **Back-Bone Ribcage modified GoPro 1/2.3" CMOS camera**.

Other Entaniya Rigs:

- ENT-RIG3 3 Camera rig
- ENT-BBR Back to back rig
- ENT-PANO Panoramic Mount Kit

ONE camera 360 video shooting system

More realistic 360 degree panoramic video when shooting forwards
