

The KALAHARI was the first 360 degree Panoramic Head from Bushman Panoramic and is designed for use with heavier DSLR and lens combinations. It can carry a payload over 3KG with ease and is intended for the most demanding amateur and professional photographers. It has a strong, durable and lightweight construction with clever operational design.

The Kalahari can be used for 360° photography achieving standard panoramas, multirow panoramas and complete spherical 360° x 180° images. A Universal camera mount and Bushman YETTI rotator is included - choose between 8, 12, 15, 18 or 24 clicks per 360 degree rotation.

Manufactured in aluminium with anodised finish the KALAHARI comes with a soft carry case.

Other Bushman products include:  
 Panoramic Heads - Gobi & Sandbug  
 Rotators - Yetti & Quick CLick  
 Tripods - Amarula & Eben  
 Poles - Corelite, Corepole, Monolite & Theta
