

Bushman Panoramic offer a range of telescopic poles to complement the range. Bushman currently have two Corepoles and three Monopoles in the range. All are made from durable carbon fibre. Lengths and payloads can be seen in the specifications opposite.

The Bushman COREPOLE and CORELITE are hollow to allow cables to be passed through. This makes the ideal for hiding cables for use in 360VR video. The THETA POLE is designed for use with small VR360 cameras such as the Ricoh Theta.

All poles can be mounted on Bushman Tripods or deployed horizontally for an "over-the-cliff" panoramic shot!

Other Bushman products include:
Tripods-

AMARULA and EBEN

Panoramic Heads -

KALAHARI, GOBI and SANDBUG

Rotators -

QUICK CLICK & YETTI
